

Company profile

Knight & Archer

Knight & Archer

At Knight & Archer, we're architects who craft unforgettable **experiences**, with a presence both in the **physical** and **online** realms. Our mission knows no boundaries: to design spaces that transcend the ordinary and **immerse** you in captivating narratives, whether you're seeking our services in person or from **anywhere in the world**. With a relentless focus on **curating** the customer experience, we fuse innovation and artistry to turn spaces into living stories.

Our philosophy centers on architecture that blends spatial design and psychological insights to craft **purpose-driven** environments that enhance **well-being** and **functionality**. We **collaborate** closely with our clients, capturing their dreams and values to create spaces that resonate deeply, whether through face-to-face interactions or virtual consultations. Whether it's a serene home or a dynamic commercial space, we blend cutting-edge technology, **sustainability**, and uncompromising **quality** to bring your vision to life.

We believe architecture is about more than bricks and mortar; it's about **emotions**, **memories**, and **connections**. Come join us on a journey where your dreams transform into architectural marvels, and where the customer experience is our guiding light. Discover the difference with Knight & Archer, where architecture becomes emotion, and spaces come alive in ways you've never imagined, bridging the physical and virtual worlds to serve you **wherever you are**.

Palm residence

Dubai, UAE

A reimagined private residential apartment turned into a tranquil sanctuary that exudes calm luxury. This renovation masterfully integrates rich natural stones and warm wood finishes, creating a harmonious balance of textures that invites relaxation and timeless elegance. Every detail, from the flowing spatial layout to the understated yet refined materials, reflects our commitment to crafting purpose-driven environments that elevate well-being. The result is more than a renovation—it's a living story of serenity and sophistication, a space where architectural artistry meets everyday comfort.

Mirage stays

Dubai, UAE

Mirage stays reimagines a standard apartment into a refined short-let residence conceived as a prototype for a series of upcoming units. Guided by a strategy rooted in minimal yet impactful intervention, the space was elevated through thoughtful spatial reorganisation, curated colour palettes, refined floor and wall treatments, and a comprehensive A–Z selection of furniture and accessories. The result is a cohesive and vibrant environment that feels both intentional and elevated, delivered with an efficient turnaround and a clear, unified design language that reflects the studio's approach to transforming everyday interiors into distinctive spatial experiences.

Edami bakery

London, UK

Developed through a collaborative client workshop and grounded in a strong cultural narrative, it focuses on blending traditional Arabic references with a modern sensibility, the design reinterprets arches, mosaic patterns, and familiar display methods within a light green palette and warm, textured materials. Tiled counters, layered shelving, varied seating, and integrated branding elements shape a cohesive and inviting atmosphere. Conceived as a sequence of experiential zones — from lounge to bar to bakery — Edami offers a refined yet unpolished space rooted in culture and designed for contemporary gathering.

Fragrance concept store

Dubai, UAE

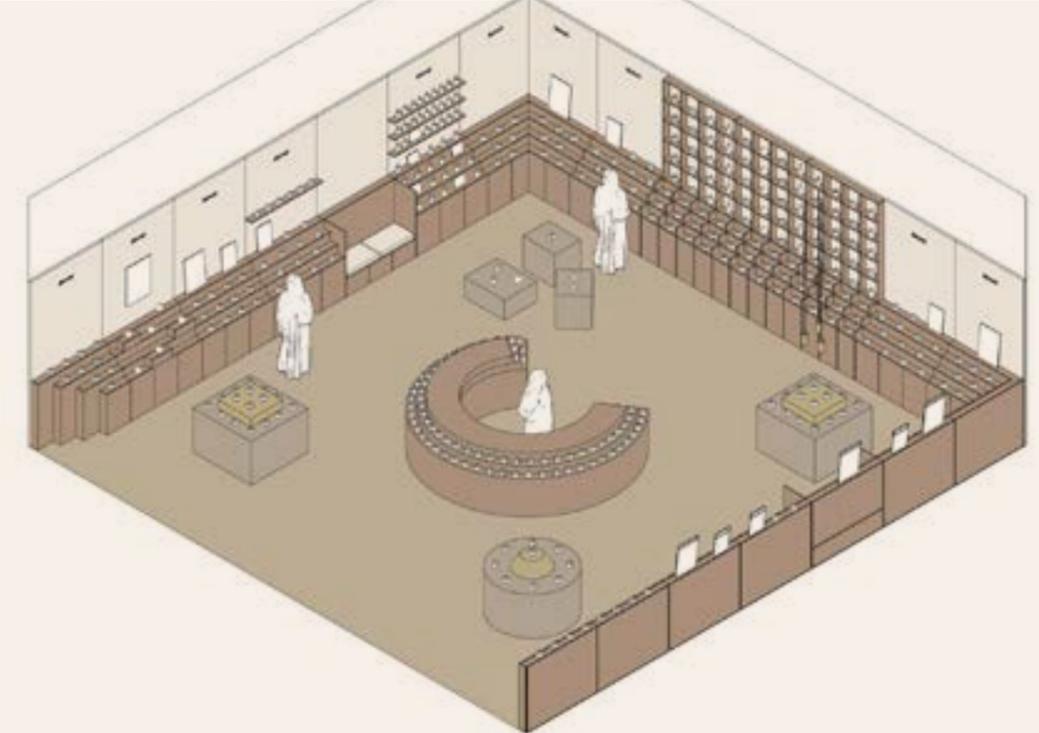

Conceived as an elevated retail destination that redefines the traditional perfume shop, It has been designed as a warm, inviting sanctuary, the space balances luxury and elegance through rich wood, stone, and warm tonal palettes, creating a lounge-inspired atmosphere centered on comfort and sensory engagement. Clients are welcomed at the entrance and guided through a personalised fragrance journey that unfolds across a sequence of curated zones — including a launch area, brand booths, a perfume bar, feature walls, and the signature lounge — all thoughtfully composed to enhance spatial variety and brand storytelling. Seamless, cashier-less payment and hospitality-driven details complete the experience, positioning it as a refined yet intimate environment crafted for contemporary fragrance discovery.

Blades villa

Dubai, UAE

A residential villa that celebrates light, space, and connection. Featuring double-height interiors, intricate lattices, and thoughtfully crafted thresholds, the design blurs the line between indoors and outdoors. Open spaces are enriched with integrated greenery and water elements, creating a serene, nature-inspired ambiance. This bespoke villa reflects our commitment to architecture that inspires and elevates everyday living.

Meydan avenue

Dubai, UAE

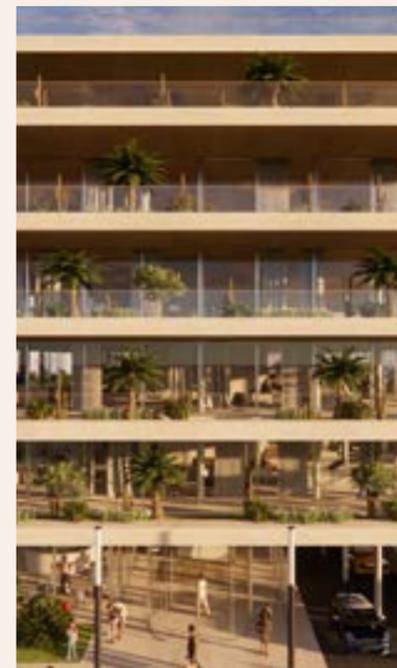

A residential building that harmonizes with its surroundings, redefining openness and connection to nature. The cascading massing integrates seamlessly with the landscape, incorporating terraces, pools, and lush greenery that blur the boundaries between indoor and outdoor spaces. Light-filled interiors and thoughtfully designed open areas create a tranquil, resort-like atmosphere while enhancing functionality and well-being. This visionary design reflects our commitment to crafting spaces that inspire, connect, and elevate modern living.

Mood boards

A mood board is a captivating visual representation that encapsulates the style and feel of your architectural project, using images, textures, and materials to evoke the desired ambiance and aesthetic vision.

Sketches

A sketch is a preliminary visual rendering that offers an initial glimpse into the design concept, often serving as a starting point for further exploration and development in architectural projects.

Drawings

A drawing is a detailed graphical representation that provides a comprehensive visual insight into the architectural design, showcasing precise dimensions, layouts, and design elements.

Collages

A collage is a creative assemblage of visual elements, such as images, textures, and materials, harmoniously combined to convey a distinct and unified concept within architectural projects.

Renders

A render is a realistic and detailed visual representation that brings architectural designs to life, illustrating how a project will look upon completion, often incorporating lighting, materials, and environmental context for enhanced realism.

Walkthroughs

A visual walkthrough is an immersive presentation that guides viewers through an architectural design by providing a detailed, three-dimensional perspective of the space, enabling them to virtually explore and experience the project's layout, aesthetics, and spatial qualities.
